

FINDSTER

Your Campus Sidekick for Lost & Found

A smart, privacy-first platform that helps students and staff report, discover, and recover lost items — fast.

 Mobile-First

 Privacy-Safe

 Campus-Native

THE PROBLEM

Campus Lost & Found Is Broken

Millions

of items lost on campuses each year
go unrecovered

No System

Most campuses rely on a physical
box nobody checks

Zero Privacy

Students avoid reporting due to
sharing personal info

Students, faculty, and staff all suffer — but no unified solution exists.

THE SOLUTION

Introducing Findster

A privacy-first campus app to post, discover, and recover lost items — instantly.

01

Snap & Upload

Photo + location + category + date in under 60 seconds.

02

Smart Filters

Browse listings filtered by category, location, or date.

03

Secure Chat

Connect with finders/owners without sharing contact details.

04

Mark Claimed

Close the loop — update status once item is returned.

WHY FINDSTER?

“

Ever lost your ID or earbuds on campus? Yeah, us too.

Those lost & found boxes? Half the time, no one knows where they are.

That's why we built Findster — a simple, student-friendly app that lets you report or browse lost items in seconds.

No awkward emails. No dead ends. Just a fast way to get your stuff back.

 No Awkward Emails

 No Dead Ends

 Just Fast Recovery

PRODUCT GOALS

Easy Digital Platform

Empower students and faculty to report and discover lost or found items without friction.

Speedy Recovery

Streamline search, filter, and posting so items return to owners in days, not weeks.

Safe & Private

Secure in-app communication ensures users never need to expose personal contact details.

Continuous Improvement

Gather structured feedback and analyze usage data to evolve the product iteratively.

MVP CORE FEATURES

Minimum Viable Product — focused on solving the core problem, fast.

Item Posting

Upload a photo with description, date, location, and category. Consistent format helps quick identification.

Search & Filtering

Browse all listings or narrow by category, location, or date. Reduces time-to-match on a busy campus.

Secure Communication

In-app messaging or masked email — no personal contact info ever shared between users.

Post Management

Edit, delete, or mark items as Claimed via a personal 'My Posts' dashboard. Keeps listings current.

FUTURE SCOPE

01

Admin Moderation Panel

Dashboard for campus admins to review posts, verify claims, and flag inappropriate content.

02

Push Notifications & Auto-Matching

Real-time alerts when similar items are posted; smart matching by type, location, and time.

03

Campus-Wide Broadcast Alerts

Admins push urgent notifications for high-priority items like ID cards or electronics.

04

Map-Based Item Location

Interactive map pins showing exactly where items were lost or found.

05

Unclaimed Items Resale / Donation

Items held 120 days → resale or community donation, with revenue transparently displayed in-app.

SCALING FINDSTER

A dual revenue model — sustainable growth while keeping the platform free for students.

Non-Intrusive In-App Ads

- Subtle placement on item pages and search results
- Core functionality stays clean and uninterrupted
- Student-friendly, non-disruptive ad formats
- Scales with platform traffic automatically

=

Growth

College Subscriptions

- Institutions pay a modest fee to onboard campus
- Unlocks admin features and dedicated support
- Provides usage insights and reporting dashboards
- Predictable recurring revenue for sustainable ops

TARGET AUDIENCE

Students

Primary Users

- Main users — lose and find everyday items
- Value quick, mobile-first experience
- Need private, contactless communication
- Drive the network effect at launch

Faculty & Staff

Secondary Users

- Discover items in offices or classrooms
- Occasionally misplace belongings too
- Appreciate a simple, no-learning-curve tool
- Support platform credibility

Campus Admins

Platform Operators

- Moderate posts and verify sensitive claims
- Send urgent campus-wide broadcast alerts
- Access usage insights and analytics
- Ensure Findster stays trustworthy

SUCCESS METRICS

How we measure Findster's MVP success in the initial rollout:

70%

Adoption

Students & staff onboarded within 3 months

60%

Recovery Rate

Items marked Claimed within 7 days

<60s

Posting Time

Average time to create a new listing

0

Safety Incidents

Reports of misuse or data leaks

50+

Monthly Posts

New listings per month at launch

80%

Alert Open Rate

Users opening urgent push alerts within 1 hr

Thank You

Findster — Built for campuses. Designed for students.

Let's make campus life a little less chaotic — one item at a time.
